THIS HAIR WASH has been prepared by us for the last 20 years. Its sale is steadily increasing in India, the Straits and Japan. It possesses all the qualities of a Hair Oil or Pomade without their stickiness. It induces a healthy action of the scalp and nourishes the Hair. Dandruff never appears whilst it is in use. It contains none but the best ingredients, and the greatest care is taken in the compounding. When the Hair falls off after fever or any other sickness, this Wash will surely prove of the greatest value.

From its great nourishing power on the folitcles it may in time cause Hair to return to its natural color; it, however, does not con ain a particle of any dyeing ingredient. Using it constantly will most certainly prevent the Hair falling. It is cleanly in use, the smallest quantity sufficing. It has no

vernor Hennessy by the foreign com munity of this Colony, the few friend of His Excellency, invariably allege the existence of a strong feeling in his favour on the part of the Chinese. Owing to a variety of circumstances, this ap parent state of things has often be put forward as a set-off against the deepeated antagonism (which has grown to he a settled conviction) in the minds of ninety-nine out of every hundred for eigners against the present Head of the Executive. We have given many reasons, during the least three years, why Governor Hennessy is not and can be popular with a community of enlightened and "level-headed" Englishmen; but it is altogether impossible as well as impolitic to give adequate expression to the small amount of love and esteem which is felt for the Head of the Administration at the present time From the very first we have given during the night increased to a gale with utterance to the keenest regrets on this heavy sea. At 4 a.m. on Thursday blew subject, which are shared, we doubt not, by all thoughtful residents of the Colony. But the fact remains, and it is significant how ready the residents of other Colonies are to extend their sympathy to their suffering nationals It is now becoming a question, however, whether the "Reserve" force of Chines admiration is in as good a condition as t has been formerly. The Chinese especially in matters of Government are proverbially slow in taking objection to the powers that be, even in the case of their own unjust and corrupt officials so that it is not surprising that they have for so long tenaciously held by the man who of all previous Governors has appeared to show most consideration to wards them. So much attention has been paid to the Chinese during the past three years, that the contrast suggested by the from Honoluin, in which and the Hawalian treatment of the governing class has been Islands he is deeply interested. Asked noted by even impartial onlookers. In- whether there was anything new about the deed the administration of Governor Hennessy has, we think, perilously tampered with the very question of who is really the governing class in this Colony and in this souse his policy has someand this omission is now beginning Chiness and to make all the money he could to bear its natural fruit. of Kwangtung require the severest kinds of punishment, and that a sound flogging is by far the greatest deterrent of crime. His mode of dealing with gambling houses and illegal dens of infamy is not in accordance with our notions. And over and above all this, he has never done anything for us save to give us fair promises as to the future. For instance, he said to us "You shall have your City Hall, and a sum was mentioned in regard to it. But there is as yet no appearance of the realisation of this or of any other scheme referring to our community." Native criticisms may be heard of the existing state of things, something after this fashion, though not in these words. There is not a race of men that breathe that has more appreciation of the practical side of government than the Chinese, and of all men a Chinaman knows how to appreciate the treatment indicated by the offer of a stone when he asks distinctly for bread. We do not say that the native are justified in expecting so much from the Governor-that they have been used as a card to play off against the Foreign or European community, is no sufficient claim for special consideration. But the result is there; and we are speaking of results. That there has been a large amount of "toying" with the Chinese there can be no question; that they have naturally expected something in return is equally true; and that there has been a revulsion of feeling amongst the Chinese unfavourable to the regime of Sir John Hennessy. we are constrained to believe. It is quite true that they are as yet incapable of appreciating the loyal freedom of speech and the healthy criticism of existing institutions which so fully enter into the public life of Western nations. Still they have some faint glimmerings of untrammelled views and the safety of open, honest speech; and they are keen to mark any man who fails to remember. that "a promise made, till finished, is eternal." This changed feeling and altering condition of the political body in this Colony is not, as we have pointed out, surprising, but it is important to note that such is the tendency of Chi-

C. C. Moreno may be of interest :-

Washington, Oct. 7.-Moreno, Hawaiian Minister Plenipotentiary to the United States, discredits the statement telegraphed from San Francisco yesterday, to the effect that the King of the Hawaiian Islands had withdrawn the extraordinary power conferred on him, and he adds that no such telegram as is described has ever reached him. He regards the story that the King has changed his policy as erroneous, while he maintains on the strength of his knowledge touching Hawaiian affairs, that such a Cabinet as is mentioned is not one which the King would be likely to select.

Oct. 8 -- Secretary Evarts declines to recognize Moreno as accredited representative of the Hawaiian Government, or to take cognizance of the matters of grievance to which he desires to call the attention of the State Department.

THE widely-expressed regret at the discontinuance of Notes & Queries on China and Japan, has induced the publishers of this journal to issue a publication similar in object and style, but slightly modified in certain details.

THE CHINA REVIEW, or Notes and Queries on the Far East, is issued at intervals of two months, each number containing about 60 octavo pages, occasionally Illustrated with lithographs, photographs, woodcuts, &c., should the papers published demand, and the circulation justify, such The subscription is fixed at \$6.50 postage

Notes and Replice are classified together as "Notes" (head references being given, when furnished, to previous Notes or Queries), as are also those queries which though saking for information, furnish new or unpublished details concerning the matter in hand. Christian Advocate (U.S.) Trubner's Oriental Record contains the following notice of the China Review :- " This is the title of a publication, the first number of which has lately reached us from Hongkong, where it has been set on foot as in some respects a continuation of Notes and Queries on China and Japan, the extinction of which useful serial a year or two ago has been much regretted in Europe as well as in China. The present publication, judging by the number now before us, is intended to occupy a position, as regards China and the neighbouring countries, somewhat similar Queen's Road, by special appointment to that which has been filled in India by the to H.E. the Governor. Calcutta Review. The great degree of attention that has been bestowed of late years upon the investigation of Chinese literature, | Maps and Charts, -G. FALCONER & Co., antiquities, and social developments, to say nothing of linguistic studies, has led to the accumulation of important stores of information, rendering some such channel of publicity as is now provided extremely desirable ; and contributions of much interest may fairly be looked for from the members of the foreign consular services, the Uhinese Customs' corps, and the missionary body, among whom a high degree of Chinese scholarship is now assidnously cultivated, and who are severally represented in the first number of the Review by papers highly a paper on Dr. Legge's She King, by the Rev. E. J. Eitel, to which the place of honour is deservedly given, an excellent summary is presented of the chronological problems and arguments involved in connexion with this important work. Some translations from Chinese novels and plays are marked by both accuracy and freshness of style; and an account of the career of the Chinese post-statesman of the eleventh century, Su Tung-p'o, by Mr. E. C. Bowra, is not only historically valuable, but is also distinguished by its literary grace. Beside notices of new books relating to China and the East, which will be a useful feature of the Review, if carried out with punctuality and detail, we are glad to notice that "Notes" and "Queries" are destined to find a place in its pages also. It is to be hoped that this opening for contributions on Chinese subjects may evoke a similar degree of literary scal to that which was displayed during the lifetime of its predepessor in the field, and that the China Review may receive the support necessary to insure Its continuance. It is the first Chinese Newspaper ever issued under purely native direction. The chief support of the paper is of course derived from the native community, amongst whom also are to be found the guarantors and securities necessary to place it on a business and legal footing. The projectors, basing their estimates

upon the most reliable information from the various Ports in China and Japan,from Australia, California, Singapore, Penang, Saigon, and other places frequented by the Chinese, — consider themselves justified in guaranteeing an ultimate circulation of between 3,000 and 4,000 copies. The advantages offered to advertisers are therefore unusually great, and the foreign community generally will find It to their interest to avail themselves of
